## **Carers Leeds offers bereavement support for carers when the person they have been caring for has died.**

We recognise that when the person you care for dies, it can be a difficult time, filled with complex and conflicting emotions. The loss includes the end of your caring role, which may affect your sense of purpose.

Carers Leeds offers one-to-one bereavement support, in person, on the telephone and on Zoom, if you have lost someone you were caring for, typically where this loss has occurred within the last two years. We also run a monthly bereavement support group – a safe space for discussing and processing grief.

Please contact our Advice Line 0113 380 4300 to find out more.

**Please take a look at our website for further information on bereavement and coping with your grief.**
